

## ImageTrend Elite Clinical Release Notes 29August19

The AMGH ImageTrend Support Team has released an update to the Elite System. All iPads will need be connected to the internet and a Sync of All Resources (Settings/Sync All Resources) will have to be completed to receive the update.

For support please utilize the AMGH ImageTrend Support Site.

https://amgh.kayako.com

Due to recent requirements for State NEMSIS reporting the following changes must be made to the AMGH ImageTrend Template. The screen shots below outline the required minimum data for each entry on every EPCR. Please remember these are **only minimum** State Requirements and do not change any requirements outlined in each AMGH company specific policies, protocols, or related to proper documentation of the care rendered.

## **Template/Rule Changes**

1. New Power Tool and Validation Rule (50 Points): AVPU – States require a minimum of one AVPU.
